I don't think we ever took possession of the laptop. The last I remember is HQ was preparing it for us but it was never delivered.

Good morning all...

I sent this email to you last month. HQ's is getting ready to eliminate this computer. Please let me know if any of you have property records (negatives too). I never took receipt of this equipment so I do not...but need to double check with you all. Thank you.

Good afternoon all...

Spoke with HQs this afternoon. Security is recalling the secured stand alone lap tops that were previously issued. As far as my records are concerned (and HQs) we never did get our sent out to the RO or COOP. ...so believe we are good.

In the event however you need to work on a secured document, there is a program that can be purchased ([REDACTED]). [REDACTED]

In the meantime, Rick...just double checking to see if you may have anything at all on that particular lap top. Also...do you know if you ever had this piece of property recorded (especially in HQ). I want to make sure it is removed from our records if you did.

Thank you all.

I spoke with Dennis, and Region 3 would still like the stand alone PC sent to the region for use at the secure room at the COOP,,,, and I don't think either of my former supervisors were that old. : -)

Things are well here, thanks for the thought.

Hi Diane,

Sorry I haven't been down to pick up the laptop yet, but there has been a significant event for me this past couple weeks. I was awarded a promotion to be the Director of the EPA's National Decontamination Team. This requires me to relocate to the Erlanger KY area.

[REDACTED]

Regarding the CD currently being stored at HQ; I will at sometime in future arrange to courier it to a secure room at our offices in Erlanger KY or NHSRC in Cincinnati.

Please advise if these proposals are acceptable.

thanks
Rich
